

Tony Grant, Exhibit Designer

Tony brings with him more than 20 years of experience in exhibit, interior and industrial design and has been a senior designer with AldrichPears for 4 years. Tony's background in architecture influences his strong focus on the experiential and environmental aspects of exhibit design. He has designed and managed numerous exhibit projects of varied size and scope internationally. He also has a particular interest and experience in the integration of technology, specifically sound, lighting and multimedia, into the interpretive experience. Tony's combination of strong creative and technical skills allows him to move effortlessly between conceptual and detailed design requirements, ensuring that exhibit concepts and ideas are well grounded and practically executed.
