

Chattahoochee Nature Center

Roswell, GA

Watershed Champions

The Chattahoochee Nature Center (CNC) is passionate about connecting people with nature and inspiring stewardship of the local ecosystem.

APA designed exhibits that allow visitors to experience the watershed from multiple viewpoints. As visitors move through the gallery, the habitats change. Visitors are eye-level with the river, then the wetland and then the land. With oversized cattails, a walk-through beaver dam and animal sculptures composed of recycled materials, visitors are immersed in the story of the watershed. At the Nature Exchange, young visitors can learn the intrinsic value of the natural world around them.
