

San Gabriel River Discovery Center

El Monte, CA

The River Sustains

The San Gabriel River Discovery Center will be located on a precious piece of green space in Los Angeles County. Interpretive features will explore the natural and cultural history of the watershed, inspiring environmental stewardship.

APA worked with staff and architects to develop a common vision and conceptual approach for indoor and outdoor exhibits. Visitors will explore San Gabriel River's watershed through its wildlife, biological diversity, water cycle, human history, management and revitalization. With accessible and engaging exhibits, visitors will connect to the watershed, revealing their role in its fragile—but sustainable—future.
