

Fort Walsh Visitor Centre

Maple Creek, SK

Law and Order on the Prairies

Since 1875, Fort Walsh has stood for law and order on the Canadian prairies. Two sites form its dramatic backdrop—the former North West Mounted Police headquarters and the Cypress Hills Massacre site.

APA worked with Parks Canada and Indigenous stakeholders to tell the region's complex story through relevant and meaningful experiences. Visitors get hands-on with history to appreciate a multitude of perspectives. Digital interactives provide a deep examination of the site's history to help visitors better understand its resonance with locals today.
