

Prairie Gallery at The Manitoba Museum

Winnipeg, MB

An Inclusive Story

The prairie is one of the defining biomes of Manitoba. APA worked closely with The Manitoba Museum's curators to interpret the intertwining natural and cultural stories of the ever-evolving landscape.

Visitors are immersed in the stories of Manitoba's Indigenous Peoples and newcomers through artifacts from the Museum's vast collection and interactive multimedia experiences. Iconic structures—a tipi, a schoolhouse and a Métis cabin—ground the story in relatable places. Ultimately, the gallery presents a diverse and inclusive story that is respectful and meaningful to all Manitobans.
