

Simon Pirquet

Exhibit Designer

With over 10 years of experience leading a wide range of projects, Simon has a breadth of experience as a Designer and Project Manager. He has led projects from concept design and budgeting, through project administration, detail development, and fabrication, to final installation. With a strong and diverse background in Architecture, Project Management, Exhibit Design and Specialty Fabrication, Simon provides a broad perspective and an eye for detail, with particular strengths in design development and creative problem solving. Simon brings hands-on experience in construction, fabrication, architectural, photography and model-making to collaborative, creative and practical endeavors.
