

# Halifax Regional Municipality Museum Strategy

Halifax, NS

## The Future of Halifax Heritage

The Halifax Regional Municipality (HRM) is undertaking a strategic plan to guide heritage interpretation and programming in the region for years to come.

Over several phases, APA and our partners are collaborating with HRM staff and stakeholders to identify existing interpretation within the region, opportunities for future heritage delivery, and an organizational model best suited for the region. Situational analysis, research and workshops will inform what form this model takes. The resulting plan will be a roadmap for an integrated heritage delivery across the HRM.
