

Miwuk Cultural Center & Museum

Angels Camp, CA

Connection Through Collections

The Miwuk Cultural Center & Museum is the centerpiece of the MACT Health Board's new administrative facilities. MACT is developing this museum as a place where community is strengthened through education, cultural engagement, and connection to tradition.

CREO partnered with APA to create a museum to care for and showcase MACT's exquisite collection of baskets and other objects created by Native artists from throughout the region. As visitors explore the collection, they will listen to the voices of Elders, participate in interactive experiences, and learn about the history and vibrant culture of the Miwuk.
