

# Nature Gallery at TELUS Spark Science Centre

Calgary, AB

## Immersive Natural Wonders of Southern Alberta

TELUS Spark Science Centre is revitalizing its galleries with the goal of becoming one of the most innovative science centers in the world. Its new Nature Gallery will encourage curiosity, learning, and wonder through enhanced representations of the natural world.

APA is working in partnership with Spark staff and other consultants to develop a Nature Gallery that feels more like an amusement park ride than a traditional science exhibit. Artistic scenic design immerses visitors in recognizable but heightened reimaginations of the diverse biomes of Southern Alberta, from river to mountains, forest, and prairie. Each landscape incorporates unique interactives and whole-body experiences that inspire a sense of deep connection to the natural world.
